

Keep Your Equipment Clean and Germ Free

No more mixing chemicals. No more spray bottles. No more obnoxious odors. Just clean equipment, happy club members and happy employees. The XWipes family of products is designed to make workouts more enjoyable for your members while relieving your employees from the chore of mixing chemicals and filling spray bottles. XWipes are also safer for your equipment – there is no chance of fouling sensitive electronic components with liquid overspray.

PETRA
premium care for skin and hair
